Darcy Grahek is a native Oregonian, embraces her Lakota heritage and is a lifelong gardener. Darcy has been working on south coast landscapes for 35 years, focusing mostly on native plants since 2005. Through Oregon

State University Extension Service, she became a Master Naturalist in 2015 and a specialist of the Coastal Ecoregion. She currently owns and operates Stillwater Natives Nursery in Bandon and concentrates on propagating plants for pollinators. Darcy designed the pollinator garden at the US Fish and Wildlife offices at Bandon Marsh in 2019 and volunteers on a variety of projects to restore native habitat to the south coast.

For future seminars, See our website:
